

The Cool Club

Solcab is an independent family run business. We pride ourselves in our proficient and respectful approach to client services. We believe integrity, efficiency and ease overflows into all areas of our business. Our timing and work determination is what sets us apart, BUT its our cool fridges and warm service that makes us fit in. Join the Cool Club.

What does the Cool Club Offer?

We bring the cool by designing, supplying and installing all refrigeration requirements including but not limited to cold and freezer rooms. We don't just supply refrigeration cabinets and refrigeration units, we source refrigeration solutions to optimise your business saving money and downtime in the long run. From consultation to installation we personalize our service, offering clients peace of mind. Your refrigeration will be cost effective with out cutting corners. Cool is just a call away, so get in touch today.

Official Agents for
Carrier - Southern Africa

**Carrier Series:
Plug in Chest Freezer**

Carrier Series: Plug in Chest Freezer

- High efficiency & energy-saving
- Versatile
- Sleek and Modern Design

Benefits at a Glance

- Large size hollow glass front display window, fully showcasing product details
- Up-down sliding doors on top for customer shopping easier
- Overall grand and stable effect, attracting customer attention, enhancing shopping experience
- Operating temperature -18~-25°C, meeting the temperature requirements for ice cream and other products
- Defrosting at regular intervals (timed) for energy-saving and environmental protection
- Refrigerant options of R404A and R290, with the variable frequency series recommending the use of R290 refrigerant for high efficiency and environmental friendliness

Standard Configuration

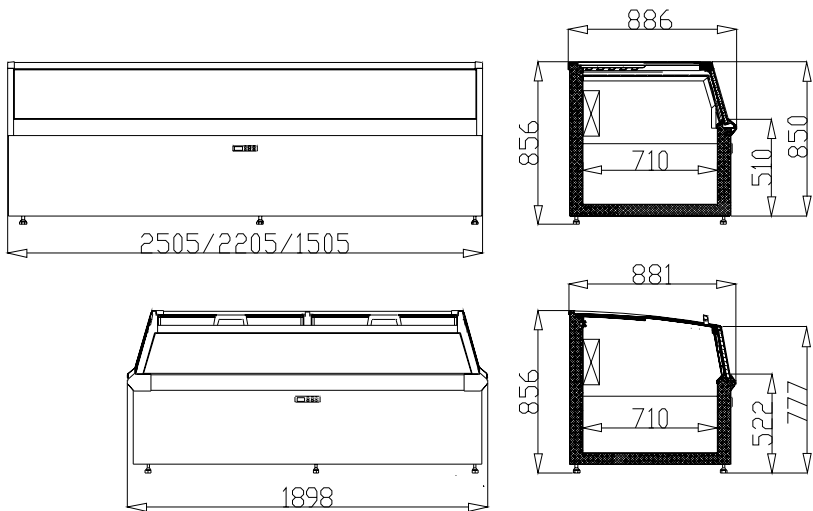

- External black finish
- Black frame and plastic extrusion
- White interior with black grid shelving
- Adjustable bottom feet
- Up and down glass slides
